## COFFEE LATTE

### About

Latte or Caff latte is espresso or coffee mixed with milk and has a thin layer of foam on top. The ratio between milk and coffee in a caff latte is 2:1.

### Detail Product

This caffé latte or coffee latte is one of the popular types of milk coffee drinks besides Cappuccino. At first glance, these two types of drinks are indeed similar, but they have different sizes and tastes, you know. Latte coffee has a more milky taste, while cappuccino has a stronger coffee taste.

*Estimated arrival in 15 minutes*
